Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Applicant's election with traverse of Group IV in Paper No. 6 is acknowledged. The traversal is on the ground(s) that the search for Groups I-VII would overlap and the search and examination of all of the groups would not be a serious burden. This is not found persuasive because it is maintained that the search for Groups III and V-VII be a serious burden. These groups involve inhibitors, methods of treatments and methods of diagnosis. A search for the polynucleotides, polypeptides and/or antibodies would not involve a search for compounds that inhibit the polypeptide, nor would it involve the diagnosis and treatment methods of Groups V-VII. Also, there are 35 USC § 112 first paragraph matters to be considered in these other groups, in addition to the art rejections, that do not have to be considered in Groups I, II and IV. Since Groups I, II and IV in some form have been allowed in U.S. Patents 6,006,724, 6,174,992 and 6,338,948, claims 1, 15, 20 and 35-161 will be examined

The requirement is still deemed proper and is therefore made FINAL.

Claims 19, 26 and 29-30 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 6.

In the PTO-1449 submitted, the last two references have been lined out. Parts of what could possibly be U.S. Patent applications have been submitted but there is absolutely no identification as to what applications these are.

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re*

Van Ornum, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claim 1 is rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-61 of U.S. Patent No. 6,006,724. Although the conflicting claims are not identical, they are not patentably distinct from each other because they are claiming sequences that are at least 95% identical with the patented claims and these claims cover 95% identical.

Claim 15 is rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-96 of U.S. Patent No. 6,174,992. Although the conflicting claims are not identical, they are not patentably distinct from each other because parts "(a)" - "(c)" meet the requirements of statutory double patenting and part "(d)" falls within the metes and bounds of the claims of the patent.

Claim 20 is rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-127 of U.S. Patent 6,338,948. Although the conflicting claims are not identical, they are not patentably distinct from each other because parts "(a)" - "(c)" of claim 15, upon which claim 20 depends, meet the requirements of statutory double patenting and part "(d)" falls within the metes and bounds of the claims of the patent.

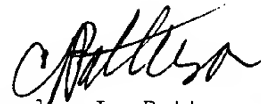

Claim 35-161 are allowed.
